Advantages of Cenforce FM 100

In the treatment of erectile dysfunction
Cenforce FM 100mg tablets are in a group of medicines called PDE-5 inhibitors. It works by tightening the blood vessels in your penis. This causes blood to flow into the penis when sexually aroused, resulting in an erection. This medicine will only help you get an erection when you are sexually aroused. It is very effective but should be taken at least 30 minutes before sexual intercourse.

Do not take this medicine if you are taking a medicine called nitrate (often prescribed for chest pain).
